When replacing failed parts under this contract, we reserve the right to require the use of remanufactured or used parts of like kind and quality compatible with the original design specifications and wear tolerances of the vehicle. Coverage is subject to deductibles, limits, and exclusions. The contract covers repairs only of covered parts and only when they suffer a breakdown as defined in the contract. Under some circumstances, a breakdown of a covered part may not be covered (for example, failure due to misuse, lack of proper maintenance, or when a noncovered part caused the covered part to fail). Additionally, the exclusions contain a list of parts not covered, some of which may be associated with a covered part (for example, brake drums, pads, and rotors; exhaust pipes, mufflers, and catalytic converters; and body and trim items). Please see the service contract for coverage details, maintenance requirements, limits of liability, and waiting periods, if applicable.
